

## **Progress Report 11/29/2020**

### **CS410 Fall 2020 Final Project: Improving Expert Search System**

**Mengyu Zhai**

Progress made thus far:

- Spent a lot of time (much more than planned) acquiring and setting up the running environment that the original code requires, which is different from what I had.
- Studied the code and made necessary modifications to make the code run locally.

Remaining tasks:

- Continue working on the new function code and testing
- Make the final demo
- Upload all files

Challenges/issues being faced:

- None now
